COMPACT USB MEDIA PLAYER AND CONTROLLER

Twin USB input to connect an external USB mass storage device ranging from an iPod to 80G HD hard disk drives via thumb drives and extensive MP3 libraries.

- Cue point management with instant start. Place your Cue points as on a normal CD player and return to them immediately
- Intelligent Music Database Management: allows the user to search through a massive library of music within seconds
- Digital Turntable platter: get the sound and feel of vinyl while preserving the convenience of digital formats.
- DSP effects: gives the user an array of 5 effects (filter, flanger, echo, brake and scratching) with comprehensive parameter setting capabilities. Edit the parameters in real time or set the values in advance.
- Multifunction JOG mode: 4 modes are available: Scratch, FX parameter, Search or Pitch.
- Maximum flexibility open to perform vital functions in once glance.
- Variable pitch slider (+/-6, 12, 25, 100%) and ultra-precise pitch control.
- Firmware Upgradeable: easily download new internal software form the dj-tech website at: www.djtechpro.com
- VBR & CBR file support: Usolo can play all your MP3's, CBR or VBR at any bit

Pitch control: +/- 6, 12, 25, 100%

Dimensions: 204 x 215 x 93mm
